*Rapid Response to the
Active Shooter*

Active Shooter Instructor Course

Designed with lessons learned from “ground zero” at Columbine, Platte Canyon and Deer Creek school shootings here in Colorado. Our active shooter program has continued to evolve over the years ensuring your officers, agency and community are prepared to effectively deal with an active shooter.

From the first initial gunshots to the arrival of the first wave of responders, our program covers it all.

Attendees will be provided with the curriculum and skills needed to instruct and maintain an effective “reality based” active shooter program at their respective agencies. Tactics taught are single to four officer responses so that no matter what the situation or size of agency your staff will be prepared. Your agency’s performance within the “Zero Hour” will define it for years to come. Our aggressive program will ensure your officers are prepared for the call of their careers while taking it one step further to prepare your communities, as well. Attendees will learn how to prepare your local government employees with our aggressive “Beyond the Lockdown...”, a program with a proven life saving track record.
