## Active Shooter Response for CHP / CCW Holders

TAC\*ONE Consulting is now offering our law enforcement grade active shooter response course to responsible citizens. In the light of recent events and lengthy consideration we feel the time is necessary to prepare people to responsibly and effectively save lives prior to the arrival of law enforcement within the first few moments of an active shooter incident. Based on our nationally recognized “Lone Wolf” Active Shooter for law enforcement this class will challenge you mentally and physically leaving you with a solid plan to defend yourself and those around you during the critical first moments of these deadly attacks.

This course will be Simunition® driven “reality based” training similar to our Advanced CCW classes. Space will be limited and those interested in attending whom have not taken any TAC\*ONE Consulting courses will have to prove their proficiency by providing training certificates and/or explanation of life experiences. TAC\*ONE Consulting staff will review and determine who will be accepted to attend this unique training opportunity.
